The B.S.B.A. in Accounting is designed to provide students with basic conceptual accounting and business knowledge as a foundation for career development in accounting information systems, public accounting, business, or government.

The Accounting Information Systems Specialization provides students with a background in computer and systems design areas. The Controllership Specialization is designed to provide students with basic conceptual accounting and business knowledge as a foundation for career development in either business or government. The Professional Accountancy Specialization provides the traditional background in accounting and is the first step towards state designation as a Certified Public Accountant (CPA).

PROGRAM REQUIREMENTS

In addition to general University requirements, students seeking the B.S.B.A. in Accounting must meet the requirements listed below.

Students should consult with their academic advisors for courses which may satisfy both the General Studies requirements and Common Prerequisites.

Accounting majors must take ENC 3250 to comply with AACSB accreditation standards. A minimum course grade of "C" is required in all College of Business prerequisites and courses.

Course descriptions are listed alphabetically by prefix in the back of this *Catalog*.

General Studies (36 sh)

Accounting majors should take SPC 2016 to satisfy the humanities/values and expressions component, STA 2023 and MAC 2233 to satisfy the mathematics component, and ECO 2013 to satisfy the social science/socio-political component of General Studies. For additional information see the General Studies section of this *Catalog*.

Common Prerequisites (21 sh)

State mandated common prerequisites must be completed prior to graduation, but are not required for admission to the program. Courses in brackets indicate substitutes from Florida public community/junior colleges and universities.
