The B.A. degree program in Middle Level Education is designed to prepare students who plan to teach in grades 5-9. The Division offers two distinct routes to the degree. With the first route, students participate in one of six NCATE/DOE approved areas through which they earn Florida teacher certification. The second route, Educational Studies, is an NACTE, but not DOE approved specialization. It prepares students to work in private settings or agencies that do not require graduation from an initial certification program. Students graduating with this specialization are not eligible for certification under Florida Department of Education criteria but may subsequently earn certification as they become eligible in one of Florida's school district alternative certification programs.

Each specialization offers opportunities for the student to recognize the child as the central figure in education, to provide for exceptions among learners, and to plan multi-cultural educational experiences. Each specialization area also includes a sequence of school-based observations and teaching experiences designed to develop skills in planning and managing instruction and working as a member of an overall instructional team. Employment opportunities for middle school graduates continue to prosper in the areas of English, math, science, and social sciences. Mathematics and Science continue to be critical shortage areas and teacher education students may be eligible for the Critical Teacher Shortage Loan Forgiveness Program and/or the Critical Teacher Shortage Tuition Reimbursement Program.

PROGRAM REQUIREMENTS

In addition to general University requirements, students seeking the B.A. in Middle Level Education must meet the requirements listed below.

Candidates for admission to UWF's NCATE/DOE approved teacher education specialization must meet and complete admission requirements detailed under Admission to Teacher Education. These requirements include, but are not limited to, satisfactory completion of all areas of the College-Level Academic Skills Test (CLAST) and the General Knowledge, Professional, and Subject Area portions of the Florida Teacher Certification Examination (FCTE). Requirements for teacher education programs may change due to legislative mandates. Therefore, the actual program requirements may differ from those listed in the *Catalog*. Candidates must inquire with the Chair of the Division of Teacher Education or with Professional Studies Student Center to obtain the most current program requirements.

Consult with your academic advisor for courses which may satisfy both the General Studies requirements and common prerequisites.

Course descriptions are listed alphabetically by prefix in the back of this *Catalog*.

Lower Division Requirements (70-76 sh)

The State of Florida mandates specified courses for the Middle Level Education program. These common prerequisites, when combined with the University's General Studies program requirements, comprise 64-70 hours of lower division courses. In addition to three specified education courses (EDF 1005, EDG 2701, and EME 2040), 51 hours must be chosen from the following liberal arts and sciences areas: communications; mathematics; natural and/or physical sciences; fine arts and/or humanities; and social sciences. The hours must include at a minimum:

- Nine hours in English to include writing, literature, and speech.
- Nine hours in science to include earth science, life science, and physical science with a minimum of one associated lab.
- Nine hours in mathematics to include college algebra or above and geometry.
- Twelve hours in the social sciences to include American history and general psychology.
- Six hours in the humanities to include philosophy and fine arts.

In addition to EDG 2701, a minimum of 6 hours with an international or diversity focus is required. UWF courses meeting this requirement are indicated below with an "**".
