The B.A. is awarded to students in two specializations: studio art and art history. Within the Studio Art Specialization students can elect concentrations in drawing, painting, digital media, sculpture, ceramics, small metals, and photography. Art History students can elect a traditional course of study or one tailored to museum work.

The Art Education Minor, combined with the Studio Art Specialization, provides the necessary background to participate in the alternative certification process offered by Florida school districts. Students who enroll in this minor must complete specific courses in the Studio Art Specialization to ensure the breadth of knowledge necessary for teaching art in public and private schools. These courses are listed in the Art Education Minor.

A grade of "C" or better must be earned in all courses that are identified as common prerequisites, major, or major-related. The art faculty advisor must approve all course choices.
