The B.A. degree program in Special Education is designed to prepare students who plan to teach children and youth with exceptionalities. Many aspects of the program provide the student with opportunities to work with exceptional children. With judicious planning and completion of appropriate electives, graduates of the Exceptional Student Education/ESOL Specialization may become eligible for certification in special education and elementary education. The challenges and intrinsic rewards, together with the NCATE professional endorsement quality, make our B.A. program in special education a rewarding and satisfying career. The second specialization, Educational Studies, is NCATE, but not DOE approved. It prepares students to work in private settings or agencies that do not require graduation from an initial certification program. Students graduating with this specialization are not eligible for certification under Florida Department of Education criteria but may subsequently earn certification as they become eligible in one of Florida's alternative certification programs.

Students are assigned to a Special Education Pending major until they meet with an advisor in the department and complete other requirements. Admission to the Educational Studies specialization requires specific approval by the chairperson.

## PROGRAM REQUIREMENTS

In addition to general University requirements, students seeking the B.A. in Special Education must meet the requirements listed below.

Consult with your academic advisor for courses which may satisfy both the General Studies requirements and common prerequisites.

Candidates for admission to UWF's NCATE/DOE approved teacher education specialization must meet and complete admission requirements detailed under Admission to Teacher Education. These requirements include, but are not limited to, satisfactory completion of the General Knowledge, Professional, and Subject Area portions of Florida Teacher Certification Examination (FTCE). Requirements for teacher education programs may change due to legislative mandate. Therefore, the actual program requirements may differ from those listed in the *Catalog*. Candidates must inquire with the Chair of the Division of Teacher Education to obtain the most current program requirements.

Course descriptions are listed alphabetically by prefix in the back of this *Catalog*.

### Lower Division Requirements (60 sh)

The State of Florida mandates specified courses for the Exceptional Student Education program. These common prerequisites, when combined with the University's general studies program requirements, comprise 60 hours of lower division courses. In addition to three specified education courses (EDF 1005, EDG 2701, and EME 2040), 51 hours must be chosen from the following liberal arts and sciences areas: communications; mathematics; natural and/or physical sciences; fine arts and/or humanities; and social sciences. The hours must include at a minimum:

- Nine hours in English to include writing, literature, and speech.
- Nine hours in science to include earth science, life science, and physical science with a minimum of one associated lab.
- Nine hours in mathematics to include college algebra or above and geometry.
- Twelve hours in the social sciences to include American history and general psychology.
- Six hours in the humanities to include philosophy and fine arts.

In addition to EDG 2701, a minimum of 6 hours with an international or diversity focus is required.

## EXCEPTIONAL STUDENT EDUCATION/ESOL SPECIALIZATION
