 College: Arts and Sciences
 Semester Hours Required for Degree: 120

Faculty: G. Stewart (Chairperson and Program Coordinator), B. Arnold (Emeritus), D. Friedrich, S. Krothapalli, G. Rohrer, E. Rodgers, B. Swain

This interdisciplinary program is designed for health care personnel who are graduates of accredited A.A., A.S. or A.A.S. degree programs (or equivalent). It is proposed in direct response to a strong need for a BS degree in the health sciences for students who have earned the aforementioned degrees and for the large pool of health care workers with similar degrees who need a bachelors degree for advancement in their current positions or in related areas in health care. It allows eligible students to build upon their previous education and training, receive credit for their prior education, and complete requirements for the B.S. degree in health sciences with specialization in one health-related concentration.

PROGRAM REQUIREMENTS

In addition to general University requirements, students seeking the B.S. in Health Sciences must meet the requirements listed below.

This degree plan is designed as a two-year program for students with an A.A., A.S. or A.A.S. degree (or equivalent course work) from a regionally accredited institution or from an accredited out-of-state college or university. In order to graduate, all students must complete at least 120 semester hours with a minimum of 48 specified upper-division hours (3000/4000 level) at UWF. A grade of "C" or higher is required in all common prerequisite courses and major courses.

No more than 24% of the program requirements for this degree may be in traditional business subjects.

Consult with your academic advisor for courses which may satisfy both the General Studies requirements and common prerequisites.

General Studies (36 sh)

Students should take BSC1005/L and CHM2045/L to meet the science component; ECO2013 to meet the social science/socio-political component; MAC1105 and STA2023 to meet the mathematics component; and PSY2012 to meet the social science behavioral component.

For additional information see the General Studies section of this *Catalog*.
